

# Capability Statement

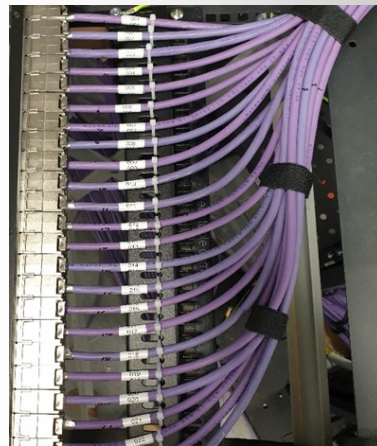

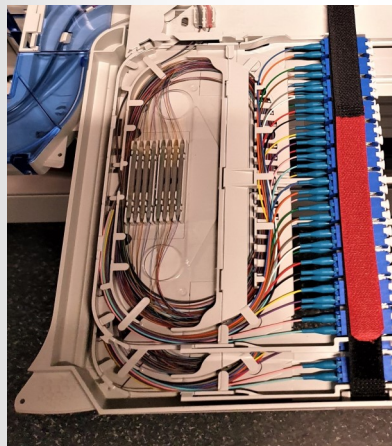

## ABOUT US

Founded in 2001, Fibre Optics NQ is at the forefront of ICT Infrastructure, a leader in telecommunications, operating from Central QLD to the Far North including the Torres Straits.

Fibre Optics NQ is a respected family business. Our reputation has been built on the quality, service and delivery of works undertaken and the strong relationships we have maintained with our clients and suppliers.

We maintain our mission 'To simply be the best telecommunications cabling company in Australia while being a role model for other indigenous businesses'.

Fibre Optics NQ is committed to maintaining our certified integrated management system which is reinforced by values and goals focusing on delivering excellence in quality service with minimal impact on the health and safety of our employees, others, and to the environment.

## OUR SERVICES

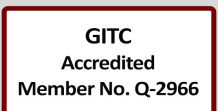

Fibre Optics NQ is committed to excellence and creating innovative and flexible solutions for our clients.

With our technical expertise, we provide a range of data services including structured cabling, optical fibre installation, testing and commissioning to support IP network connectivity.

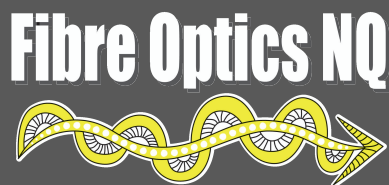

We use only the best cabling materials to guarantee the highest quality network available and offer 25 years warranty on installations.

- Voice/WiFi /Active/CCTV
- Structured network cabling to the latest industry specifications including Cat 6, Cat 6a, and Cat 8
